ELMER E. GOVE

BURLINGTON, VERMONT

# Please Read Carefully

**Extras on Cash Orders:** On cash orders of \$2.00 to \$5.00 you can select 10% extra in bulbs of your own choosing. From \$5.00 to \$25.00 select 15%, \$25.00 to \$50.00 select 20% and above \$50.00 select 25%. These discounts do not apply to collections.

Also on orders of \$25.00 to \$50.00 I will put in a bulb of Hercules or King Arthur extra. On orders of \$100.00 or more in addition to the regular discount I will give you for \$10.00 extra a bulb of Solveig.

On cash orders of \$10.00 or more except collections I will give a copy of the "Gladiolus Book" by Rockwell, if you ask for it.

Packages of bulblets run from thirty-five to one hundred or more. We give very good value on these packages.

You can have 3 bulbs at the 10 rate; 25 at the 100 rate. But no single item for less than 10 cents.

**I Guarantee Satisfaction** and I mean just that. If at anytime, either after receiving the bulbs or after blooming, you have cause for complaint just write me about it and I will do my utmost to make things right. This is the only basis on which anyone can hope to conduct a business that will be permanently successful.

Don't worry about price. If any other reputable grower is selling for less than my prices I will give extra count to make up the difference. In fact I will probably give enough count to not only offset any other grower's possible lower prices but will more than satisfy you. Leave it to me.

The above discounts and extras are all for cash orders. The earlier the orders are received and the larger they are the more generous we will be with our extras. If you want to get your order in and cannot spare all the cash now send 25% and the balance later and we will see that you are satisfied. **But the above extras are only for Cash.**

At these prices all bulbs are **prepaid** anywhere in the United States and Canada and all countries in the Postal Union. Transit charges to countries that require them are not paid.

When there is a figure before prices (as 2-.10, 2-.15, etc.) it means two bulbs for .10 or two bulbs for .15 as the case may be.

## ABOUT THRIP

This past two years thrip has caused a great deal of damage to gladiolus in many parts of the country. This is a very minute insect that propagates down in the axils of the leaves and under the sheaths of the buds. It causes the buds to dry up and not open. The flowers have whitish streaks on them. In a bad infestation often the whole field is ruined as far as flowers are concerned.

This insect has done so much damage in many places that some growers of gladiolus have been discouraged and do not intend to plant them again. It looked rather bad at first but I think now that there is much hope.

Gladiolus in the past have been almost too easy to grow. Now we have got to handle them carefully as we do other plants and perhaps we will appreciate them more.

It has been found that many people who have handled their bulbs properly have not been troubled much this past season tho they have had lots of thrip previously.

I shall have all known information about the thrip in my new catalog that will be out after Christmas. Meanwhile if you will observe the following procedure you will go a long way toward eliminating thrip.

1. When digging cut the tops off tight to the bulbs. Be careful not to shake the tops over the box the bulbs are being put in.
2. Burn all tops and other refuse around your garden. Put kerosene on the tops if they are green and they will burn readily. Do this as soon as possible after the bulbs are dug.
3. After the bulbs are partially cured scatter naphthalene flakes over them. This will kill all thrip on the bulbs.
4. Try to get your neighbors to follow the above precautions.

Those who have studied the question thoroughly feel that even those who have had a bad infestation previously can be reasonably sure of growing good glads in the future, as many who lost nearly all their glads last year have not been troubled this year, at least not till very late in the season. And by proper spraying I think they can be eliminated entirely. Further information in my new catalog out about New Years.

These offers are for cash with order. Discounts do not apply to collections.

**No. 1.** 100 assorted bulbs, 1 to 2 inches in diameter in at least 40 varieties, all good ones. This collection contains many different shades of red, pink, blue, orange, yellow, smoke, white and lavender. If you prefer certain colors or want certain colors left out I can make up the collection in that way. There are many different types of blooms including both plain and ruffled petals. I do not believe there is as good a collection of gladiolus sold by anyone at anywhere near the price. The varieties are not labeled as to name. Have sold a great many of these collections to friends of people who had bought them before. Have had many repeat orders and fine reports on this collection. 100 for \$3.00; 50 for \$1.75; 25 for \$1.00. All prepaid.

**No. 2.** Collection at same prices as above but contains only primulinus varieties and about 30 kinds and of course a smaller number of colors.

**No. 3.** Collection containing at least 45 varieties, many of them the same as in No. 1 collection but with quite a number of higher priced varieties also. A fine assortment. \$5.00 per 100; 50 and 25 at the same rate.

**No. 4.** Collection contains 50 varieties or more including many of the finest exhibition sorts that sell for 50 cents each and up. No collection can be any better than this one. \$10.00 per 100; 50 and 25 at same rate.

**All the bulbs in the above collections are guaranteed healthy and to give good bloom if given good ordinary care and if not affected by conditions beyond my control. But they are not labeled as to name. If labeled they would cost several times the price asked.**

**No. 5.** Labeled collection. Large bulbs at least 1 1/4 in. in diameter. 2 Aflame, 2 Aida, 1 Ave Maria, 2 Berty Snow, 3 Betty Nuthall, 2 Chas. Dickens, 2 Mammoth White, 3 Dr. Moody, 2 Dr. Shook, 2 Gloriana, 3 Golden Dream, 3 Loyalty, 3 Morocco, 2 Mrs. Konynenburg, 2 W. H. Phipps, 3 Gay Hussar, 2 Orange Wonder, 2 Pfitzer's Triumph, 1 Bill Sowden, 2 Veilchenblau, 4 Royal Lavender, 2 Miss Bloomington, 3 Ecstasy, 2 Marmora for \$3.00. And for orders received before November 1st I will give a large bulb of a Palmer origination, a good one. This collection is wonderful value and probably will not be in my regular catalog.

**No. 6.** Same collection as above except in medium size bulbs for \$2.00.

**No. 7.** Same collection as above except in small size bulbs for \$1.25.

**No. 8.** One large bulb each of all the Palmer varieties that have been introduced to date, 13 kinds as follows:—Picardy, Pirate, Acadia, Bagdad, Coronation, Debonair, Golden Cup, Duna, Rapture, Rideau, Spray of Gold, Wasaga, Inspiration for \$20.00.

**No. 9.** The same collection as above except in medium size bulbs for \$15.00.

**No. 10.** The same collection as above except in small size bulbs for \$10.00.

**No. 11.** 2 large selected bulblets each of the 13 Palmer varieties for \$5.00. These are all extraordinary values.

Collections from No. 5 to No. 11 inclusive are all labeled.

## A FEW KIND WORDS

"Just a line to let you know that Picardy was the most sought for glad at the Wisconsin Glad Society Show at Kohler. There were six or seven very good spikes shown and everybody went wild over them. Hercules was also very popular. I myself believe it the equal of Picardy."

A. R. GEBEL, Wisconsin.

"The Minuets you sent me came through O.K. Surely you are more than generous! Just how much I appreciate the gift of the running-over measure I am unable to tell you. But I do appreciate it and I thank you."

—C. D. SHARP, New York.

"I just have to tell you what a pack of fun I have had with my glads this season. I have been cutting them for five weeks now. I have had wonderful success. Got by with no thrip following your suggestion of using the hose on them whereas my neighbors have suffered with them badly. I spent one day at the show at Pittsburg. Personally thought Palmer's exhibit was the outstanding one at the show. In the past two years I have tried out 250 of your varieties buying a single bulb in most of them and now find I want to grow 50 varieties in lots of five or more in my small garden so when you get your list ready send it along because I want to place my order for fall delivery and get the early pick of your bulbs."

—R. G. HALL, Pennsylvania.

"My Picardy bulblets have been blooming freely and they are as good or better than 75% of blooms from large bulbs of other varieties. If they never bloomed from anything but bulblets Picardy would still be a leader.

"Almost without exception visitors have exclaimed 'almost unbelievable' or 'it's hard to believe there is such a flower.' From large bulbs they were stunning." —E. H. YOUNG, Illionis.

"It might interest you to know that last summer I purchased some bulbs from four other growers and I found yours to be by far the best. And in spite of our dry season some of the plants from your bulbs were five feet ten inches high. I have been growing glads for the past seven years but I have never grown such wonderful spikes as your bulbs produce."

—J. C. BECK, New Jersey

"First I want to tell you what wonderful success I am having with the bulbs I received from you. Through all this dry weather we have been having they held up wonderfully and I never saw a more perfect bloom or plant than those from your bulbs. La Paloma was the most beautiful and truest orange I have seen or had and certainly will order more from you next spring. I am recommending your bulbs to all my friends. Thank you so much for the extras."

—ADDIE F. MCKINSTRY, New Jersey.

"I feel that a word of appreciation is due you for the prompt and very generous manner in which you filled my order of recent date, and I write to thank you. It is something entirely new in my experience to be so dealt with. You may be sure that any future orders will be yours, and that your name will be passed along to my friends who raise gladiolus."

—LEONARD CUSHMAN, Mass.

"I have been especially pleased with Picardy which is everything that you and others claim for it. And it comes at a very nice time being about two weeks later than Mildred Louise. In the case of Bagdad even the No. 3 bulbs have given me wonderful spikes. As a smoky it is in a class all by itself."

—M. W. WENTWORTH, Michigan.

"Here is a report of the Picardy and Bagdad. From 47 Picardy bulblets, 47 strong plants, 29 have bloomed and may get more. And by using the cloth screen had 8 open at once 5½" to 6" across. Bagdad has been the huskiest, strongest grower from bulblets of 265 varieties. 97 days from sprouting to first bloom. From 17 bulblets, 17 plants, 11 have bloomed and two or three more may. There is plenty of vitality in Palmer's glads."

—B. BAKER, California.
